## H. Household and background characteristics

### *Introduction appears on screen (for group 1 (CX99905 = 1)):*

<p>In this study, we are interviewing the children of married and divorced parents. Most questions are about you. That is why it is best if there are no other people present in the same room during this interview. If you don't want to answer certain questions, you can always say so.</p> <p>Nobody else can find out what you say during this interview. Do you have any questions?</p>	
--	--

### *Introduction (for group 2 and 3 (CX99905 = 2 or 3)):*

<p>In this study, we want to gain a better insight into marriages, and the causes and consequences of divorce. To this end, not only are the experiences of parents important, but also those of the children.</p> <p>Some questions will concern your private life. Preferably there are no other people present in the same room during this interview.</p> <p>You may at all time refuse to answer any question.</p> <p>Your participation is important for the quality of this research. All your answers will be treated confidentially and only be used within the framework of this study.</p> <p>Do you have any questions?</p>
