Introduction

In this study, we want to gain a better insight into marriages, and the causes and consequences of divorce. To this end, not only are the experiences of parents important, but also those of the children. You were selected to participate in this study as a child of "first_name_P1» and «first_name_P2». This questionnaire is about their marriage and divorce.

The quality of the study depends on your co-operation. There are no right or wrong answers to this questionnaire. What matters are your personal opinions and experiences.

We would like you to answer this questionnaire by yourself. We assure you that the answers will be treated confidentially.

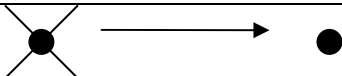

The completion of the questionnaire will take about 30 minutes.

How to fill in this questionnaire and return it?

If you choose an answer from a list of possible answers, it is important that you tick the bullet of the answer of your choice with a black or dark blue ballpoint. Do not use a pen and avoid Roller Blank or Tipp-Ex. Colour the bullets completely:

Correct	Wrong
	 

If you want to change an answer, cross out your first (wrong) answer and tick the bullet of your new answer.

If you have to write a response, you have to write it within the provided text framework.

Introduction

In this study, we want to gain a better insight into marriages, and the causes and consequences of divorce. To this end, not only are the experiences of parents important, but also those of the children. You were selected to participate in this study as a child of "first_name_P1» and «first_name_P2». This questionnaire is about their marriage and divorce.

The quality of the study depends on your co-operation. There are no right or wrong answers to this questionnaire. What matters are your personal opinions and experiences.

We would like you to answer this questionnaire by yourself. We assure you that the answers will be treated confidentially.

The completion of the questionnaire will take about 30 minutes.

How to fill in this questionnaire and return it?

If you choose an answer from a list of possible answers, it is important that you tick the bullet of the answer of your choice with a black or dark blue ballpoint. Do not use a pen and avoid Roller Blank or Tipp-Ex. Colour the bullets completely:

Correct	Wrong
<input checked="" type="radio"/>	<input type="checkbox"/> <input type="checkbox"/>

If you want to change an answer, cross out your first (wrong) answer and tick the bullet of your new answer.

Correct
<input checked="" type="checkbox"/> → <input checked="" type="checkbox"/>

If you have to write a response, you have to write it within the provided text framework.

Correct	Wrong
<input type="text" value="2 children"/>	<input type="text" value="2 children"/>

The questions must be answered in order. The questionnaire is designed to ensure that – according to your personal situation – you can skip some parts of the questionnaire. There will be an arrow (→) indicating which questions you can skip.

You can send us the questionnaire using the provided envelope. A stamp is not required.
